

Gospel Garden Project

Chamber Leadership 2012

The Chamber Leadership Class of 2012 has chosen to assist the Medford Gospel Mission with the development of a garden. This garden will provide healthy, homegrown foods for the Gospel Mission's "Main Ingredient" restaurant and will be maintained by the volunteers and clientele of the organization. When complete this garden and restaurant style dining area will:

- Make a significant positive impact on the community
- Meet needs of many ages and facilitate inter-generational learning and cooperation
- Increase awareness of our food sources and teach valuable, sustainable gardening skills

As the class works to make this dream of the Medford Gospel Mission come true we will need the support of the community. The class will be soliciting financial support and material donations in addition to volunteer time to help with the planning and construction of the project. The recession has taken its' toll on many in our own community. This is an opportunity to help provide a place that will serve as much more than a garden and will provide healthy food, dignity, and education for those who are in the most need. Please contact the Medford Chamber of Commerce at 541-779-4847 to find out how you can help. Email: GospelGardenProject@gmail.com
